# Invoice

- Automate many of the processes associated with printing statements and invoices, eliminating manual bursting, separating and distributing.
- Cut costs and increase workflow efficiencies.
- Improve corporate image with crisp looking laser printed documents.
- Eliminate the cumbersome process of loading, re-loading and aligning preprinted forms.

## With no change to your host, you can benefit from the powerful features of PlanetPress Suite:

Data can be mapped and reformatted in any number of ways. For example, include a Remittance Coupon on the bottom of an invoice with a data driven barcode, increases workflow efficiency while offering the ability to track payments. Invoices can contain graphics, barcodes, text or pages that are printed automatically depending upon information contained within the data stream.

Source Z-fold pressure seal stock with your logo pre-printed in color. Once printed, the Z-fold stock can be placed in a folder sealer to produce mailing pieces with no envelopes. The Z-fold stock with your logo is 50% the price of the pre-printed form and envelope combined. The bursting and envelope stuffing is eliminated, saving 5 man-days each month.

### In addition you can:

- Automatically archive copies as a PDF or TIFF (single or multi-page) image along with an XML index file. Use hot folders to feed into a third party archival system or retrieve using PlanetPress Search.
- Easily integrate with a third party solution to pre-sort and cleanse mailing addresses as well as group multiple invoices to the same customer. This automated process may lead to very large savings on labor and mail costs.
- Use distributed print. For example, continue to print invoices in the data center or route the data to the mailroom on the first floor of the corporate office in another city for printing.
- Implement a solution replacing noisy, dirty line printers using expensive pre-printed forms with PlanetPress Suite and PostScript® printers/MFPs using cut sheet paper.

# Pick Ticket & Shipping Label

- Increase shipping document workflow efficiency
- Eliminate re-keying information to print shipping labels
- Print Pick Ticket and Shipping Label together on the same printer/MFP (even on the same page, at the same time)
- Eliminate the need to manually match them up

**Reduce forms costs and automatically match labels to pick tickets!**

Often times companies print a pick ticket at the warehouse then have to re-enter the customer information into another system to generate a shipping label.

With PlanetPress Suite, the same data originally used to print the invoice is now sent to the warehouse (minus prices and with the scale and rotation changed) to print out a combined packing slip and shipping label, thus eliminating the error prone process of manually matching them up.

# Personalized Letters

- Fully personalize your promotional letters with much more than just a name and address.
- Perform a mail merge without network congestion issues.
- Print personalized letters much faster.

Generate a personalized letter for your customer with a thank you message or special offer that is currently available on items related to their purchases. In addition to variable text, PlanetPress Design is capable of conditional imaging. This allows, for example, to dynamically include the signature of the customer's specific sales rep. You can go even further with more advanced functions like dynamic graphing.

Network congestion is no longer an issue since PlanetPress Suite loads to the printer/MFP all the images once and then sends the names and addresses. This makes for a much faster printing process. With the addition of postal sorting software, the addresses can be pre-sorted for postal discounts and checked for accuracy.

Also, in a traditional mail merge, if the printer jams or crashes, there is no easy way to reprint from the middle of the job. PlanetPress Suite can resend the job from any starting point.

# TransPromo Invoice

Turn your invoices into full advertising vehicles with no changes to your host system:

- Include information on a related product to what was just purchased in order to drive additional revenue.
- Automatically include printed information that accompanies a purchased product or service (e.g. Specific growing instructions for Tulips that the customer purchased with the invoice.).

With no change to the host system, easily transform your invoices into advertising vehicles, making the most of the dollars spent on postage already. There is a goldmine of information within your existing invoice print stream that can be used to help you build a better relationship with your customers and sell more!

With minimal initial set up, targeted messages, graphics or pages can be printed based upon information found within the data:

- Add coupons or messages about related items or service contracts based on line items in the invoice.
- Change Terms and Conditions on the reverse of the invoice based on destination or customer type.
- Add a full page targeted color ad based on customer ordering patterns.

Personalization of documents has been proven time and again to increase response rates.

Greatly increased workflow efficiencies can also be realized:

- Eliminate pre-printed forms that have to be printed on impact printers, burst and decollated, then distributed via interoffice or outside mail.
- Automatically route data to the appropriate departments to print the accounting copy in accounting, the pick tickets and shipping labels in the warehouse, and the customer copy in the mail room or data center.
- Automatically generate an electronic copy along with an index file for archive.
- Email a copy or notice to the customer that their order is being processed, and/or send a fax confirmation - all automatically and simultaneously.

Services Agreement - Terms & Conditions

The following constitutes a summary of the terms and conditions set forth in the Services Contract governing the actual contractual relation between Objectif Lune Telecom Inc. and the customer. The customer may request a copy of the Services Contract from Objectif Lune Telecom Inc. by contacting Objectif Lune Telecom Inc.'s Customer Service department or via the Objectif Lune Telecom Inc. corporate web site at www.objectiflune.com.

1.Objectif Lune Telecom Inc. may, upon at least thirty (30) days' prior notice to such effect sent by mail to the customer, modify the Services or any other proObjectif Lune Telecom Inc. of this agreement, including the charges and rates. However, no prior notice shall be required with regard to a modification of Services if Objectif Lune Telecom Inc.'s services offerings remain similar and have no impact on the charges payable by the customer. It is expressly understood that certain services, or their replacement by other similar services, are offered as part of a package deal and that changes to these services do not necessarily entail an adjustment of the charges and rates. By settling the statement of account accompanying any notice of modification to this agreement, the customer is irrevocably deemed to have accepted the modifications. However, the customer may, within such thirty (30) days delay, cancel this agreement or request that it be modified, failing which the customer shall irrevocably be deemed to have accepted the modifications covered by the notice.

2.Subject to the proObjectif Lune Telecom Inc.s set out below, this agreement shall come into force on the Effective Date and shall have a minimum term of thirty (30) days, which shall be automatically renewed for additional successive periods of thirty (30) days. The customer may at any time, upon at least thirty (30) days' prior notice to Objectif Lune Telecom Inc., cancel this agreement or ask Objectif Lune Telecom Inc. for a subscription to another category of Services.

3.If the subscription is part of a sales promotion offered by Objectif Lune Telecom Inc. whereby the customer enjoys lower rates than would have been the case without such sales promotion, the subscription shall be for the period covered by the sales promotion (the "Sales Promotion Period") and may not be cancelled before such period ends. Upon expiry of the Sales Promotion Period, the subscription shall be automatically renewed under the same conditions or at the regular rate in effect for this type of subscription in accordance with the conditions of such sales promotion, unless Objectif Lune Telecom Inc. receives a notice of non-renewal from the customer within ten (10) days preceding the expiry of the Sales Promotion Period.

4.Should the customer cancel a subscription contracted as part of a sales promotion before the expiry date of the Sales Promotion Period, the customer shall pay Objectif Lune Telecom Inc. as damages the penalties indicated in the contract.

5.Charges shall be payable on the due date indicated on the account statement sent to the customer (by mail or electronically), by authorized payment debited from the customer's account or by pre-authorized payment charged to the customer's credit card. If the charges remain unpaid following the due date, they shall bear interest at the rate of 2% per month (24% per annum) calculated and compounded daily as of the due date. As long as charges remain unpaid, Objectif Lune Telecom Inc. shall issue an account statement on a monthly basis. Any partial payment made by the customer will first be applied to the accrued interest, then the unpaid capital, starting with the overdue amounts due the earliest with respect to the payment date.

6.The customer shall not rent, transfer or lend the Equipment or permit use of the Services for personal gain or purposes of public representation.

7.The customer may not connect the Equipment to a number of TV sets or receivers greater than the number indicated in the specifications or proceed to install additional outlets, failing which the customer shall be liable to civil and criminal sanctions. The Equipment may not be transported to a location other than that mentioned in the Specifications, without prior written authorization of Objectif Lune Telecom Inc.. The customer undertakes not to connect to the Service a number of cell phones greater than the number agreed in the Specifications, without the prior consent of Objectif Lune Telecom Inc.. The law forbids receipt of services or portion of services without having paid for them, except with the written prior consent of Objectif Lune Telecom Inc.. Any departure from the law may lead to civil or criminal sanctions.

8.Administration charges shall be billed to the customer for any cheque returned due to insufficient funds, for each pre-authorized payment refused by the customer's financial institution or for any debit from the customer's credit card not authorized by the issuing institution.

9.In case of interruption of the Services attributable to any cause whatsoever other than the customer's fault, Objectif Lune Telecom Inc.'s liability shall be limited to crediting upon written request by the customer, the minimum charges proportionally to the duration of the interruption in relation to the total period for which the customer must pay minimum charges, calculated on an hourly basis, provided the following conditions are met: i) the customer has notified Objectif Lune Telecom Inc. in writing; ii) for Services other than Video on Movies on Demand, the interruption lasted for a period of at least forty-eight (48) consecutive hours after the notice and iii) the customer has sent a written request for credit to Objectif Lune Telecom Inc. within fifteen (15) days following such notice.

10.Any Equipment sold to the customer shall be warranted against any manufacturing defect for a period of one (1) year for parts and labor. The customer may choose to purchase the extended warranty offered by Objectif Lune Telecom Inc. on the Equipment sold to the customer, as long as the extended warranty is offered by Objectif Lune Telecom Inc. for such Equipment, as determined by Objectif Lune Telecom Inc.. The warranty period shall be calculated from the Effective Date. Objectif Lune Telecom Inc. shall replace the defective Equipment by identical equipment or another model in accordance with the terms of the warranty, provided the customer notifies Objectif Lune Telecom Inc. of the defect within the warranty period. Notwithstanding the foregoing, the warranty does not apply to any breakage or defect resulting from accidents of force majeure, modifications to the Equipment by the customer without Objectif Lune Telecom Inc.'s prior written authorization, misuse or abuse of the Equipment. In case of defective Equipment, the customer agrees to notify Objectif Lune Telecom Inc. promptly so that a duly authorized representative of Objectif Lune Telecom Inc. can make the necessary inspection.

Payments are accepted at most financial institutions. Please return this portion with your payment.

LATE PAYMENT CHARGE  
A late payment charge of 2% will be added each month to the unpaid balance, starting on the day following the due date.

7.The customer may not connect the Equipment to a number of TV sets or receivers greater than the number indicated in the specifications or proceed to install additional outlets, failing which the customer shall be liable to civil and criminal sanctions. The Equipment may not be transported to a location other than that mentioned in the Specifications, without prior written authorization of Objectif Lune Telecom Inc.. The customer undertakes not to connect to the Service a number of cell phones greater than the number agreed in the Specifications, without the prior consent of Objectif Lune Telecom Inc.. The law forbids receipt of services or portion of services without having paid for them, except with the written prior consent of Objectif Lune Telecom Inc.. Any departure from the law may lead to civil or criminal sanctions.

8.Administration charges shall be billed to the customer for any cheque returned due to insufficient funds, for each pre-authorized payment refused by the customer's financial institution or for any debit from the customer's credit card not authorized by the issuing institution.

9.In case of interruption of the Services attributable to any cause whatsoever other than the customer's fault, Objectif Lune Telecom Inc.'s liability shall be limited to crediting upon written request by the customer, the minimum charges proportionally to the duration of the interruption in relation to the total period for which the customer must pay minimum charges, calculated on an hourly basis, provided the following conditions are met: i) the customer has notified Objectif Lune Telecom Inc. in writing; ii) for Services other than Video on Movies on Demand, the interruption lasted for a period of at least forty-eight (48) consecutive hours after the notice and iii) the customer has sent a written request for credit to Objectif Lune Telecom Inc. within fifteen (15) days following such notice.

10.Any Equipment sold to the customer shall be warranted against any manufacturing defect for a period of one (1) year for parts and labor. The customer may choose to purchase the extended warranty offered by Objectif Lune Telecom Inc. on the Equipment sold to the customer, as long as the extended warranty is offered by Objectif Lune Telecom Inc. for such Equipment, as determined by Objectif Lune Telecom Inc.. The warranty period shall be calculated from the Effective Date. Objectif Lune Telecom Inc. shall replace the defective Equipment by identical equipment or another model in accordance with the terms of the warranty, provided the customer notifies Objectif Lune Telecom Inc. of the defect within the warranty period. Notwithstanding the foregoing, the warranty does not apply to any breakage or defect resulting from accidents of force majeure, modifications to the Equipment by the customer without Objectif Lune Telecom Inc.'s prior written authorization, misuse or abuse of the Equipment. In case of defective Equipment, the customer agrees to notify Objectif Lune Telecom Inc. promptly so that a duly authorized representative of Objectif Lune Telecom Inc. can make the necessary inspection.

Payments are accepted at most financial institutions. Please return this portion with your payment.

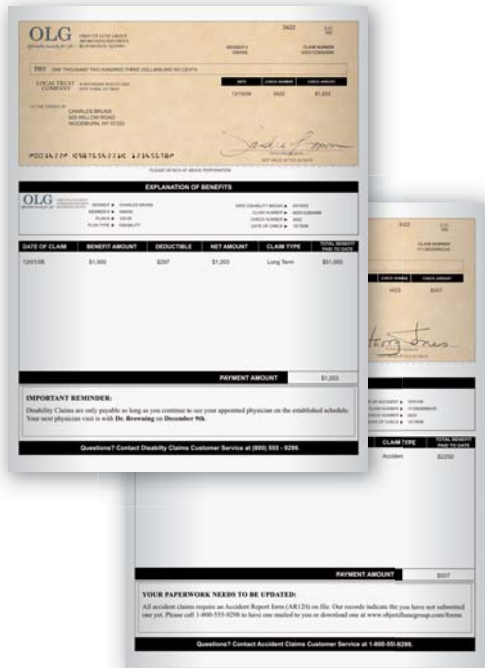

LATE PAYMENT CHARGE  
A late payment charge of 2% will be added each month to the unpaid balance, starting on the day following the due date.

# Check with Explanation of Benefits

- Reduce security concerns when printing checks.
- Create an EOB formatted exactly the way you need it to be.
- Eliminate the need for expensive check stock with a pre-printed MICR line (for MICR printers only).
- Add targeted, personalized messages and information.
- No longer rely on noisy, high maintenance impact printers.

PlanetPress Design can have the MICR font installed as a TrueType font. The incrementing check number can be maintained on the printer/MFP hard drive, enabling the printing of unique check numbers, simulating the expensive pre-printed incrementing check number. The check stock could also be Z-fold self-mailer stock reducing the post process labor costs.

In addition, check-printing security can be greatly enhanced:

- The check “form” is an ASCII file (PostScript) that can be placed on the UNIX host. NOT in the printer/MFP. When a check run is initiated, under UNIX security access, the check form is concatenated to the check data and sent to the printer/MFP. After the print run the form is deleted off the printer/MFP. This way there is no check stock with MICR line available for unauthorized printing.
- PlanetPress Suite can automate the periodic output of a report of all checks printed to reconcile against the accounting system to monitor possible fraudulent check printing.
- The check payee, account number and/or amount can be printed at a forty five (45) degree angle on the check multiple times as a background, making changing the check almost impossible.

# Bilingual Registration Verification

- Map transactional data.
- Have variables on both sides.
- Set conditions for variables to appear/not appear.
- Support multiple languages.

**Easily create multi-up perforated slips for printing. With no change to the host system, map your customer's data onto the form in the appropriate formatting.**

Since the data is being pulled directly from your host, the most updated information available is being printed on your form. This process is further automated by using information found in the existing data stream, (such as city or zip code) to automatically add information specific to the recipient.

N-up documents boost your efficiency! They are simple to create and it is easy for the recipient to understand and quickly locate the relevant information.
